DETAILED ACTION

1. The amendments to the specification and the claims have been entered. Claims 1 and 3-13 remain pending in this application. The amended claims have overcome the rejections recited in the prior Office action. Applicant's remarks were considered, with the results set forth as follows.

Information Disclosure Statement

2. The examiner has considered the references provided with the information disclosure statement (IDS) received 12/8/03 (Paper No. 4) (see the attached form PTO-1449).

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Ohgami et al (U.S. Patent No. 5,592,362).

Ohgami et al teach all the claimed invention, including: a detecting mechanism for detecting the opening and closing of the display cover 141 for turning on or off the LCD display 143 of an electronic computer system 1, which comprises: a cam 237, a power switch 232, an elastically deformable lever 235, a main body or a first unit 3, a display cover unit or a second unit 141, see Figs. 1, 34 and 35; col. 8, lines 58-63; col. 20, lines 20-44; and col. 26, line 55 to col. 27, line 5.

Response to Arguments

4. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

It is noted that certain structural features of the lever 35, which were pointed out by the applicant in the Remarks, see pages 13-14 of the above-identified Amendment, have been considered by the examiner. However, they are not recited in the rejected claims. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
